The Undergraduate Chapters in 1949

DEMETRIOS Ohio State University

The chapter has been in its new home at 101 East 12th Avenue since early in 1948.

Scholarship standing last year was fourth among 46 fraternities. In collaboration with the student A.I.A., the traditional Beaux Arts Ball was revived. On October 30 last year, Samuel Calabretta, John Kopp and Jerome Romis were initiated.

Officers for this semester are Francis L. Ruzsa, W.A., George A. Cleland, W.A.A., Donald H. Stark, W.S., and Orville Varasso, W.E.

Newcomb, Preservation of Historic Buildings, James W. Kidney, Chairman of the Committee for Study of Local Public Buildings, Howard Dwight Smith, School Buildings, George M. McConkey and John C. Thornton, Institute Cooperation with Technical Committees.

Alpha Rho Chi's attending the Ann Arbor convention last June were impressed anew with the fact that ours is a National Fraternity. With undergraduate chapters in six Colleges of Architecture and alumni widely scattered over the whole country, the many advantages of an intersectional organization are available.

Recent visits of Illinois men to California, Ohio men at Champaign, and an exchange of student work between Michigan and Virginia, are instances of the opportunities which occur for good fellowship and interchange of ideas.

Each chapter and each member gains strength and stimulation from our association in a national group.

Since most of us cannot attend the conventions, this issue of *The Archi* aims to present for all members a picture of the Fraternity as it is now being carried on by our undergraduate chapters.

MEMBERS OF DEMETRIOS CHAPTER AT COLUMBUS

The Boys At Andronicus Are Merry

MNESICLES—University of Minnesota

The temporary chapter house has been remodeled and redecorated throughout, largely by the efforts of the chapter members and Minneapolis Alumni. New furniture is being installed, with Eames chairs and Kurt Versen lamps and dining tables now in. At the first mention of such "uncompromising modern", there was some consternation on the part of the Alumni Association, who were to finance the purchase. However, after much discussion, it was conceded that the furniture in question was actually the cheapest and most practical available.

With the thought that a professional fraternity should offer more at its meetings than a discussion of finances and parties, the chapter asked the Minneapolis alumni for help in providing programs of professional interest, speakers,

lecturers, movies, exhibits, etc. The alumni responded with an advisory committee, composed of Walt Barnes, Don Pung, Austin Lange, George Freeburg and Hugh Walters, who have arranged a number of interesting talks at the chapter house. Winthrop Wadsworth discussed values of the fraternity after graduation; Louis Lundgren spoke about the A.I.A., how it operates and its relation with student activities; Elmer Magnuson showed movies of the Alcan and Pan American Highways; and Harley Johnson led a discussion on the interrelation of design and construction.

Willard Thorsen and Richard Peterson were initiated last November. Gordon Heck and Wallace Wellenstein graduated from the university in December.

Mnesicles officers are Orrin Field, W.A., Robert Bennighof, W.A.A., Kenneth Pieper, W.E., Warren Peterson, W.S. (recording), and Robert Kennedy, W.S. (Corresponding).

ANDRONICUS Univ. of So. California

Officers for the spring term are Paul Tay, W.A., William Hickman, W.A.A., Pierre Koenig, W.S. and W.E., and Rex Hamilton, W. Supt.

Andronicus members are active in many campus activities. Bill Hickman has served on the L.A.S. Council and on the year book staff. Fred McDowell represents the College of Architecture on the Senior Class Council and is director of the student branch of the A.I.A. George Bissel is a member of Trojan Squires, a campus service organization. Bill Hobba, a Trojan Knight, was in charge of card stunt designs during the recent football tilts of S.C.

The Andronicus chapter house has been remodeled almost entirely by the members.

Iktinos has a new combination incinerator and barbecue pit designed by Brothers Haas and Brady in a house competition and built by the new initiates.
